9 Submitted with references

10 During the last Dasara Session of the Representative Assembly there were complaints from certain members lodged in the School building that some petty thefts had taken place in some rooms owing to the windows not having been equipped with iron bars. Under instructions from Chief Secretary the Asst. Engineer Head Quarters range Mysore was requested that "at least one window in each of the rooms may be got provided with iron bars". In his letter dated 17.1.1936 the Asst. Engineer has reported that the estimated cost of the work is Rs 1040/- But in view of what is stated in the Chief Engineer's D.O. it is for consideration whether the idea may not be dropped. The School building is required for the occupation of R.A. members for about 20 days in a year and it may not perhaps be worth while to incur the above expenditure ~~which is at present financially unacceptable~~. With a little more police vigilance, the recurrence of thefts complained of last time can perhaps be avoided.)

1/3 16 The amount of the Estimate for fixing Expanded Metal comes upto Rs 260/- This is proposed to be met out of the savings under in the estimates sanctioned for permanent installation of fans in the Jagan Mohan Palace) under "R.A. Miscellaneous". But the other expenditure under this head, ("R.A. Miscellaneous") has nearly amounted to the sanctioned grant & proposals are separately under consideration for obtaining additional grant under this head to meet the demand during the remaining portion of the year. It does not appear to be possible to debit this expenditure to the head pointed out & there are no other sources from which this could be met. Submits for orders.

BVN.
8-4-35.

24 17 There is no order sanctioning the fixing up of the expanded metal to the windows of the Marimallappa's High School building. The Ch. Engineer in his letter dated 31st March 1934 intimated that the Dewan was not in favour of having iron bars for the windows of Public Institutions and on that score the question of providing iron bars for the windows of the Marimallappa's High School building was dropped. What applies to iron bars seems to apply to expanded metal also. The Ch. Engineer may be consulted in the matter. There is no provision in the R.A. Budget

Re estimate for covering the 603
windows gym m H School work expanded m ⅈ x.

General and Revenue Secretariat. | File No. of 193 . | [App. F. III-2

Memo No. 341 d 10.8.1935 from the Asst Engineer. No quarter range, mepne forwarding copy of his letter to Supdg. Engr. mepne circle requesting sanction to the full estimate for covering the windows of the M. M. H. School with expanded metal. Intimates that the work would be completed before August a requests approval to meet the entire Cost from the Savings in the estimate for installing fans.

40 37) The Asst Engineer in his letter of 28th June 1935 intimated that the entire work would Cost about Rs 260/- as per estimate and the work to an extent of Rs 113/- has been carried out. Approval to meet the Cost to this extent from the Savings in the estimate for fixing fans was Conveyed in this office letter of 22.7.35. Now approval to meet with the entire Cost of the estimate to the estimate for fans is asked for. It is stated by the Asst Engr that there is sufficient savings in the estimate for installing fans & the proposal may perhaps be approved. Submitted for orders with a draft.

41 31) Pl. perhaps a draft as submitted.

10th Octr.

Dear Sir,

You are aware that the Members of the Representative Assembly are lodged in the Larimallappa's High School during the R.A.Sessions. The windows of almost all the rooms in the building are not provided with iron bars. This defect seriously affects the sense of security of the residents. I am therefore desired to request that at least one window in each of the rooms may be got provided with iron bars. If the shutters are closed, light and ventilation are not available. If they are left open, the safety of the things kept in the rooms is at stake. Hence this arrangement, which may kindly be got done as early as possible so that the building may be ready by the next June Session of the Representative Assembly. There were also some petty thefts in the building on this a/c

Yours sincerely,

The Assistant Engineer, Headquarters Range, Mysore.

B A N G A L O R E.

Dated 28/3/193

Re:- Expanded metal covering for windows in the Ground Floor of Marimallappa's High School, Mysore.

Sir,

I have the honour to bring to your kind notice that the School building was inspected jointly with special duty Officer and the work of fixing expanded metal to one window in each room was undertaken as desired by him for the convenience of the Assembly members who were bitterly complaining of want of ventilation.

It may be stated here that the work of fixing iron bars as approved last year was dropped because it was costly. Since something was urgently required to improve ventilation and assure safety to the inmates, it was necessary to have recourse to the use of cheaper expanded metal fencing. The estimate may kindly be countersigned and transmitted to Superintending Engineer, Mysore Circle, Mysore, with funds. It is learnt that

that there is some Rupees 500/- savings in the estimates sanctioned for permanent installation of fans etc in the Jaganmohan Palace. If there be no objection the cost can be met under this.

I have the honour to be,

Sir,

Your most obedient servant,

Assistant Engineer, 25/3

Head quarter Range, Mysore.

Report to accompany the estimate for putting expanded metal to the windows of Marimallappa's High School, Mysore.

******

The windows of the main building have no iron bars, and the members of the Assembly find it very inconvenient for occupation, as there will be no ventilation if the shutters are kept closed forx safety. To keep down cost and to satisfy urgent necessity, it is proposed to provide one window only in each room with expanded metal.

Accordingly the present estimate has been prepared proveiding for fixing expanded metal for 18 windows immediately. The remaining windows can be similarly treated next year under seperate estimate as it will be very costly to take up the whole work simultaneously. Only windoows in Ground floor require this covering.

The amount of the estimate is Rs 210/-

Assistant Engineer, 28/3
Head Quarter Range, Mysore.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

No. C 309/R.A 8-35-36 Dated, Bangalore, 23rd July 1935

From

The Offg: Chief Secretary to the Government of His Highness the Maharaja of Mysore.

To

The Assistant Engineer,
Head Quarter Range, Mysore.

Sir,

With reference to the correspondence ending with your letter No.2299 dated 24th June 1935 regarding the payment of the bill on account of the cost of covering the windows of the Narimallappa's High School building with expanded metal-I have the honor to convey approval to your proposal to meet the cost of the work carried out so far, viz. Rs.113/- from the savings in the estimate for installing new fans in the Representative Assembly Hall, Jagan Mohan Palace.

I have the honor to be,
Sir,
Your most obedient servant,

Sd. K. V. Anantaraman.

Offg:Chief Secretary to Government.

Memo No. C 310.

Dated Bangalore, the 23rd July 1935.

Copy of the above is forwarded with compliments to the Superintending Engineer, Mysore Circle, with reference to his letter No.381 dated 11th July 1935 for information.

By order,

RE:- Expanded metal covering for windows of Marimallappa's High School, Mysore.

Sir,

With reference to your No.C.112 dated 8-8-35, returning the estimate for the above, I have the honour to state that as the source of Funds was not definitely settled only part of the work which was very urgently required was done. The remaining work will have to be completed as the same is required. Since there is sufficient savings in the estimate for installing fans, the full estimate may kindly be sanctioned and returned so that the work may be completed before Dasara. Copy of this has been sent to the Special Duty Officer with a request to communicate approval to the utilisation of savings to meet the cost.

I.T.O.

the cost.

I have the honour to be,
Sir,
Your most obedient servant,

Sd. S. Ramaswamy,

Assistant Engineer,
Head Quarter Range, Mysore.

Office of the Assistant Engineer,

D.O. No. 40 Head Quarter Range,

R.A-8-35-15 Mysore Dated the 17th August 35.

Dear Sir,

With reference to your D.O. No.O.526 dated the 16th August 35, I write to inform you that 12 windows have been covered with expanded metal and the outlay is Rs.113/-. It is unnecessary to remove the same once they are fixed as it does not interfere in any way with the School work. Besides there will be recurring expenditure on this account.

I therefore request you to get the estimate approved and return the same early.

Yours Sincerely,

Ramarao
